# QUESTION 3 - INDEPENDENT FEATURE DEVELOPMENT
# =====

# Rename default branch to main
git branch -M main

# Create appointment feature branch
git branch appointment-feature

# Switch to appointment-feature
git switch appointment-feature

# Create appointment module
cat > src/appointment.txt <<'EOF'
Appointment Module

Purpose:
The Appointment Module allows students to book and manage appointments with campus healthcare services.

Features:
1. Book a health appointment.
2. View upcoming appointments.
3. Cancel an appointment.
4. Reschedule an appointment.
5. View appointment details.

Expected Users:
1. Students
2. Campus doctors
3. Health center staff

Module Status: Development
EOF

# Display the module
cat src/appointment.txt

# Stage the file
git add src/appointment.txt

# Commit the feature
git commit -m "Add appointment module"

# Display all branches
git branch

# Display current branch
git branch --show-current

# Return to main
git switch main

# Demonstrate that feature was developed separately
git branch
Switched to branch 'appointment-feature'
Appointment Module

Purpose:
The Appointment Module allows students to book and manage appointments with campus healthcare services.

Features:
1. Book a health appointment.
2. View upcoming appointments.
3. Cancel an appointment.
4. Reschedule an appointment.
5. View appointment details.

Expected Users:
1. Students
2. Campus doctors
3. Health center staff
